

Marelign Yimer

Full-Stack Developer

Computer Science graduate from Bahir Dar University (2018 E.C, CGPA: 3.65/4.00, Exit Exam: 78%) with hands-on experience in full-stack web and mobile development using React.js, Node.js, Express.js, MongoDB, MySQL, PostgreSQL, ORM, Go (Gin), and React Native. Currently working as a Full-Stack Developer at RAMA Software and IT Solutions. Completed a 4-month Full-Stack Development Internship and won 1st Place in a 48-hour AI Hackathon. Passionate about building scalable, secure, and user-focused software solutions.

Experience

Full-Stack Developer | RAMA Software and IT Solutions

| 2026 June– Present

- Architected and developed a production-grade ERP system with a team for Vector Advert & Manufacturing Company, digitizing manufacturing, inventory, HR, finance, CRM, and business operations.
- Built scalable frontend and backend services using React.js, Node.js, Express.js, PostgreSQL, and ORM, with REST APIs and role-based access control.
- Implemented real-time analytics and system updates using WebSockets, Supabase, and microservices-based backend architecture.
- Deployed and supported the system for real-world daily business operations, from development through testing and production use.

Jun 2025 -Sept 2025

Full-Stack Development Internship – Amhara Innovation Tech

Developed full-stack Car Rental web applications using modern technologies.

- Built responsive frontend and secure backend features.
- Worked with React.js, Node.js, Express.js, rest API ,Role based access controle, and MongoDB.
- Collaborated and version controle using Git and Agile development practices.

Four months Full-Stack Development Internship at Codveda Technologies 2025

- Built responsive web applications using React.js with modern, user-focused interfaces.
- Developed and integrated RESTful APIs using Node.js and Express.js.
- Designed and integrated MongoDB and MySQL databases for application data management.
- Participated in debugging, code reviews, and collaborative software development.
- Built an AI-powered job-matching freelancing platform connecting clients with suitable talent.

Projects

Vector Advert & Manufacturing – ERP

- Built and deployed a production ERP covering manufacturing, inventory, HR, finance, CRM, and real-time analytics. Tech: React.js, Node.js, Express.js, PostgreSQL, Supabase, WebSockets, REST APIs, Microservices.

E-Commerce Platform

- Built an Amazon-style platform with Chapa payments and role-based admin, seller, buyer, and delivery dashboards. Tech: React.js, Golang, Gin, GORM, MySQL, REST APIs, Kafka, Docker.

AI Job Recruitment Platform

- Built an AI-powered platform connecting Ethiopian clients and freelancers with CV, skill, and job matching. Tech: React.js, Supabase, AI APIs.

AI Learning Platform –won 1st Place Hackaton

- Built an AI learning platform in 48 hours with AI agents for study planning, course generation, and learning resources. Tech: React.js, FastAPI, MySQL, Sequelize, Socket.IO, Tailwind CSS.

Certifications & Achievements

- Full-Stack Development Training & Certification – Demera Percipio, 3 months.
- Full-Stack Development Training & Certification from Codveda Technologies .
- 1st Place – BIT AI Hackathon: Built an AI solution with the “Prompt Lab” team in a 48-hour challenge.
- Leadership: Strong skills in presentation, training, teamwork, and leadership.
